Professional Summary

Experienced Senior C#/.NET Developer with a strong background in software architecture, system integration, database design, and user interface development. Proficient in WPF, WinForms, and familiar with modern web technologies including Blazor, Angular, and CSS.

Key career highlights include:

- PFA: Contributed to the development of an internal B2B solution, exploring new technologies such as Angular for web-based interfaces.
- Danske Bank: Held technical ownership of the Depository Services System, built with WPF and Entity Framework. Collaborated closely with stakeholders to align technical solutions with business needs.
- Microsoft (MDCC/Navision): Served as Technical Lead from 1999 to 2008 on the Commerce Gateway project—Microsoft Dynamics NAV's B2B integration platform based on Microsoft BizTalk Server. Responsible for system architecture and core development.

Technical Expertise

- Languages & Frameworks: C#, .NET, VB/VBA
- UI Technologies: WPF, WinForms, Blazor
- Data Platforms: MS SQL Server, Entity Framework
- Integration: Web API, WCF

Driven by a deep passion for technology and a commitment to sharing knowledge, I thrive in collaborative environments where innovation and continuous learning are valued.

Experience:

Oct. 2023 -

Geomatic Software Engineer
